

THE SHANGPA NETWORK

Foundation letter

We, the undersigned, disciples of Vajradhara Kalu Rinpoché, consensually founded the Shangpa Network”.

Motivation : understanding that in an authentic bodhisattva attitude, cooperation is stronger than competition, we started the Shangpa Network to help the lineage, its holders, lamas and centres by means of an interdependent network of cooperation.

Definition : The Shangpa Network is non-hierarchical. It has neither director, nor owner, nor hierarch. Its principles are described in other documents. The website (www.shangpa.net) will be the meeting place and catalyst for the network, including a presentation of the lineage and its news, a directory of the Shangpa lamas and centers, a database related to the Shangpa transmission (Shangpa texts, thangkas, etc.), as well as various information concerning projects of common interest open to all those motivated.

In such a way, the Shangpa Network has been consensually founded, as Vajra brothers,
